- Google Pay

Using your Airtel AU service overseas

it is not recommended to use your Australian subscription data and unlimited voice and text calls when traveling overseas.

when traveling overseas, it is recommended to purchase a roaming pack via the airtel au mobile app, for more information please click [here](#).

Data banking

A data bank is a Airtel AU Sim service that automatically stores any unused data from your subscription plan at the start of the next subscription period. Data bank data is used after your subscription data has been exhausted.

Airtel Au mobile app will notify you of both your subscription plan data usage, calls and SMS.

The maximum amount of data that can be stored in a data bank for this plan is up to 500GB.

Changing plans will not impact any existing data stored in your data bank.

Changing plan

Airtel AU has simplified the way yo can change your plans, you can do so at any time via the airtel au mobile app. You will be able to choose to change immediately or at the start of the next subscription period. (recommended)

Changing immediately will give you the difference in data allowance and any additional inclusions between your current plan and the new plan, minus any allowance you have already used on your current plan.

Additionally, you will be charged the difference in price between the new plan, regardless of when in your subscription period you make the change. For example, you are on the 35GB for \$25/mth plan, and wish to move to the 55GB for \$32/mth plan. You have already used 7GB, so once the change plan takes effect, you will have an additional 45GB of data to use until the next subscription period (45GB for the new plan - 7GB of data you have already used). You will also be charged \$7 for the difference in prices between the two plans.

You can request to change your plan on your next subscription period to any other available plan at any time during your current subscription period.

You are also able to cancel the request at any time before the next subscription period starts.

For example, if you are on the 35GB for \$25/mth plan, and wish to move to the 10GB for \$20/mth plan, you can request to change your plan on your next subscription period. If you cancel the request, you will not be charged any additional fees.

Cancelling your subscription

You can cancel your subscription at any time by via the airtel au mobile app.

Your service will continue with the current subscription period.

No cancellation fee to cancel, however any outstanding fees will need to be paid.

Any unused allowance or credit will not be refunded when your subscription is cancelled.

You can remove the cancellation request at any time before the end of the current subscription period via the airtel au mobile app or resubscribe at anytime.
